Reading

[PCMS Online Catalog](#) - Discover what the library has available for you

[What to Read Next](#) - Use this website to help you discover another book that you might enjoy

[Novelist](#) - Use this KCLS database to help discover books you might enjoy, read reviews and more

Research

Research is always best when you start with reliable sources. Most of those reliable sources can be found within database. King County Library has teamed up with the Issaquah School District to provide database access. Below are the databases that will be the most useful in your research at PCMS.

KCLS Databases -

In order to sign in to these databases, you will need your ASB card number. Click on any database and when prompted, enter:

User Name: 4 1 1 _____ (7 digit ASB card number)

PIN/Passcode: _____ (Last 4 digits of ASB card number)

The databases listed below are probably going to be the most useful for you in your research for projects at PCMS. To see all the databases KCLS has to offer you can also go to <https://kcls.org/students/>

[Biography in Context](#)

Amazing resource for finding biography resources.

[Britannica Online for Young Adults](#)

A great place to start your research: Online encyclopedia that can give different levels of reading and reliable information.

Country and state reports, articles, maps, videos, statistics and data, photographs, biographies.
